

March 24, 2020

Dear Coating Tech Slot Dies Customers, Suppliers, and Friends:

Coating Tech Slot Dies (CTSD) is open and continuing business as normal being deemed an essential business during Wisconsin's "Safer at Home" restrictions. If you are a supplier to CTSD, you are also an essential part of our country's manufacturing infrastructure. Equipment manufactured by CTSD is used to manufacture essential products.

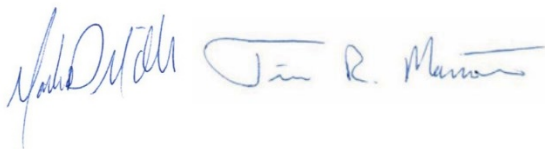

If your business is shutting down, we need to know right away so that we may plan accordingly for supplies or shipments.

With the COVID-19 situation affecting so many individuals and businesses, we want to assure you that Coating Tech Slot Dies is working diligently and continues to provide important products and services while also following recommendations for individual health and safety. We are taking the threat seriously and staying abreast of the latest developments and best practices in this rapidly changing situation.

We continue to operate our production facility and office. We are doing everything we can to continue a high level of productivity and service while protecting the health and safety of our team, customers, and community.

We are grateful to our employees, customers, and suppliers for their positive attitudes and diligence in continuing productive work while dealing with this short-term situation. Continue to take care of yourselves, your families, and your friends and neighbors. Feel welcome to reach out to us any time.

Sincerely,

Mark Miller and Tim Marion, Founders
Coating Tech Slot Dies
